The Council on Higher Education serves as the coordinating agency for higher education in Kentucky. Among its responsibilities, the Council:

- Develops and implements plans for a coordinated system of higher education;

EXECUTIVE SUMMARY

This report is a summary of total associate, baccalaureate, master's, specialist's, doctoral, and first-professional degrees, and other formal awards conferred between July 1, 1994 and June 30, 1995 by Kentucky institutions of higher education. These institutions include state-supported universities and community colleges, independent four-year and two-year colleges and universities, and theological seminaries. Other independent institutions licensed by the Kentucky Council on Higher Education and submitting data to the Council are also included.

Please note some changes in this report from previous publications. The number of second majors completed by students earning a degree at a Kentucky state-supported institution is included in all reports of degrees awarded by degree field (Reports 3, 4, 7, 9, 10, 11, 12, 13) for these institutions. Second major information is not available for independent institutions and theological seminaries (Reports 3, 5, 6, 8, 11, 14, 15, 16, 17). The summary of degrees reports (1 and 2) continue to reflect only the number of degrees awarded.

A total of 25,692 degrees and awards were granted during this reporting period. Of the 21,264 awarded by state-supported institutions, 17,577 were earned at the eight universities and 3,687 at the 14 community colleges. Independent four-year and two-year institutions granted 4,236 degrees; 4,077 by the 20 senior institutions and 159 by the two junior colleges. Other independent institutions awarded 192 degrees. Details of these degrees by level and institution may be found in Reports 1 and 2.

The four theological seminaries awarded a total of 665 degrees; Report 17 provides details by institution and degree.

Overall, more degrees (first and second majors) were generated in education, business management and administrative services, and health professions and related sciences than other degree program areas. At the baccalaureate level, 16 percent of the majors were in business and 16 percent in education. Forty-four percent of the master's and specialist's majors were in education, 9 percent in public administration, and 9 percent in business. Education led the doctoral degree programs (19 percent) followed by biological sciences (14 percent). At the associate degree level, health sciences (38 percent) and liberal arts and sciences (29 percent) were the most popular degree programs. Over half (53 percent) of the first-professional degrees were in law; medicine generated an additional 27 percent, followed by dentistry with 13 percent and pharmacy with the remaining 7 percent. Reports 3 through 16 provide data by specific degree program.

Data in this report were summarized by Council on Higher Education staff from the U. S. Department of Education's IPEDS Survey, Postsecondary Completions, July 1, 1994 - June 30, 1995 and from the CHE data base.
